TASK 1 – General Knowledge

Hello,

Thank you for contacting Telerik Support.

This problem is frequent when one of the components was updated not only OpenAccess. In this case link from the screenshot should work. I give you a link where you can download the latest version of SQL Server Data Tools for this moment: http://msdn.microsoft.com/en-us/data/hh297027.

I hope this information helps. Please let me know if I can assist you any further.

Regards XXX
